About Me

I graduated from the Computer Engineering department of Tekirdağ Namık Kemal University with a GPA of 3.26. Throughout my university life, I participated in various volunteer activities. I served as a leader in the Google Developer Student Clubs at Tekirdağ Namık Kemal University, and I volunteered as an instructor at the Turkish Education Volunteers Foundation (TEGV).

During my internships and work experience, I had the opportunity to work with technologies such as Flutter, Firebase, .Net, xUnit, C#, Angular, Bootstrap, and Unity. In the field of mobile application development, I designed two applications named HEO and QuickSafe. Additionally, I developed a game called Eğlen ve Öğren. I independently developed both the frontend and backend of these applications. Some of the projects in these fields are available on my GitHub account.

Experiences

ATC Bilişim Teknolojileri

Software Development Specialist
Oct 2024 - Feb 2025

I developed an educational game using technologies such as Unity, C#, and Firebase, aimed at helping preschool and elementary school children with their lessons. I independently handled both the frontend and backend development of this application.

Turkcell Global Bilgi

Communication and Integration
Solutions Intern
Feb 2024 - Jun 2024

I worked with technologies such as Angular, ASP.Net Core, xUnit, and C#.

Yöre Grup

Software Development Intern
Jun 2023 - Aug 2023

I worked with technologies such as Flutter and Firebase to develop a mobile application.

Volunteer Experience

Google Developer Groups Tekirdağ

Organizer
Oct 2024 - Present

I am an organizer in the Google Developer Groups Tekirdağ community.

Google Developer Student Clubs Tekirdağ Namık Kemal University

Lead
Aug 2023 - Aug 2024

I held various roles in the Google Developer Student Clubs at Tekirdağ Namık Kemal University for two years, and I served as the leader of the community during the 2023-2024 term.
