PROFILE

Hello, my name is Abdullah Sıtkıcan Dede. I have completed all my courses except for a 30-day summer internship with a GPA of 3.25 in Computer Engineering at Tekirdağ Namık Kemal University. Throughout my university life, I participated in various volunteer activities. I served as the leader of the Google Developer Student Clubs at Tekirdağ Namık Kemal University and volunteered as an instructor at the Educational Volunteers Foundation of Turkey (TEGV). During my internships, I worked with technologies such as Flutter, Flutter, .Net, xUnit, C#, Angular, and Bootstrap. I designed two mobile applications named HEO and QuickSafe.
